Summary

Motivated and fast-learning Computer Engineering student with a solid foundation in programming, Linux, and networking. Passionate about cybersecurity and problem solving, seeking opportunities to apply technical knowledge and grow in the field of software development or IT security.

Education

Misr University for Science and Technology
Bachelor's Degree in Computer Engineering
Expected Graduation: 2028

Technical Skills

- Programming: C++ (OOP, Data Structures), Python
- Operating Systems: Linux (Basics)
- Networking: Network Fundamentals
- Cybersecurity: Basics of Ethical Hacking

Projects

- Data Structures Practice (C++)
  - Implemented multiple data structures (linked lists, stacks, queues)
  - Applied object-oriented programming principles
- Basic Network Scanner
  - Built a simple port scanner to identify open ports on a local network
- Linux Command Automation
  - Wrote basic shell scripts to automate daily tasks on Linux

Languages

- Arabic: Native
- English: Very Good (Reading, Writing, Speaking)

Soft Skills

- Fast learner
- Problem-solving mindset
- Teamwork and collaboration
- Time management
